At Bourbon Community Hospital, our goal is to deliver the best healthcare available to Bourbon and Nicholas County, as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your support and encouragement, we continue our passionate pursuit of excellence.

Delivering quality healthcare close to home is the single most important contribution we make. But there are many other ways we make a positive impact on the communities we serve. Here are a few of the ways we are making a difference.

Nearly $1.9 in capital improvements
We completed a number of capital projects in 2014. Our largest renovation was the conversion of eight medical surgical beds to our adult behavioral health unit, Stoner Creek Centre. This was an investment of $900,000. We now have 24 beds on our adult behavioral health unit which allow us to treat additional patients who need this service. We also were able to replace and or upgrade some of our systems to include the following: ED Care Clock to help publicize our ED wait times on the hospital website; replacement of med surg hospital beds; addition of new sleep lab equipment; replacement of our nuclear medicine machine; upgrades and improvements to our patient care information system; additional surgical microscope; and replacement of blood pressure machines. We also invested several thousand dollars in facility upkeep and maintenance. The hospital is also adhering to the requirements for healthcare reform and continues to certify our patient care information system under the meaningful use requirements.

We received Chest Pain Center Accreditation in 2014 from the Society of Cardiovascular Patient Care. This accreditation means that our hospital has achieved a higher level of expertise in dealing with patients who arrive with symptoms of a heart attack. We were also able to help several individuals re-enroll and enroll for health insurance through the KYNECT website as part of the Affordable Care Act requirements. These new accreditations, renovations and programs will help Bourbon Community Hospital continue to grow and be better able to serve its constituents. In fact, we invested $1,889,120 in our facilities during calendar year 2014, which, in addition to the above, included technology replacement, information technology additions/updates, and important facility upkeep and maintenance.

Contributing to our local tax base
Last year, Bourbon Community Hospital paid $173,881 in taxes which helped support our city, county and state. This included state sales taxes as well as property taxes. These dollars help maintain local schools, fund the development of roads, recruit business and industry, and provide other similar services vital to support and sustain a thriving economy.

Helping those in need
Bourbon Community Hospital is committed to ensuring the delivery of needed healthcare to all members of the community, regardless of ability to pay. Last year, the cost to Bourbon Community Hospital was nearly $600,000 to provide services for those without the ability to pay for their care.

Adding new physicians
During the past year, Bourbon Community Hospital added 10 new physicians to our highly respected medical staff, including specialists in urology, nephrology, emergency medicine, neurosurgery, neurology and dentistry.

One of our community’s major employers
With an annual payroll of $12,832,029 and an average of 245 employees, Bourbon Community Hospital is one of the largest employers in the region. We thank you for choosing us for your healthcare needs. With your support, we can continue making our community healthier.
**COMMUNITY BENEFIT REPORT**
